## 产品介绍 Product Introduction

消火栓箱是建筑物内，特别是大型高层建筑物内不可缺少的消防设施。它是与室内消火栓、水带、水枪、卷盘、报警器等消防器材组成的具有给水、灭火、报警等多功能的消防装置。

消火栓箱选用优质钢板材料，采用先进的加工工艺，造型美观，坚固耐用。我司除生产标准型消火栓箱外，还可根据用户需求，提供不同材质的消火栓箱；如全钢型；钢框镶玻璃型；铝合金框镶玻璃型等。

产品标准：GB14561-2003《消火栓箱》。

The hydrant box is an indispensable fire facility in buildings, especially large high-rise buildings. It is firefighting equipment which has water supply, fire fighting and alarm function, which is composed of fire hydrant box, indoor fire hydrant, fire hose, fire nozzle, fire hose reel, alarm and other fire device. The material of fire hydrant is high quality steel plate, with advanced processing, fine appearance, strong and durable. In addition to the standard type hydrant box, we can also provide the hydrant box with other materials as your requirement. Like, all-steel type, steel frame with glass type, aluminum alloy frame with glass type etc.
